PROFESSIONAL OBJECTIVE

Results-driven Full Stack Developer with expertise in building scalable and responsive web applications using modern technologies such as HTML, CSS, JavaScript, PHP, Laravel and Python. Passionate about delivering high-quality solutions, optimizing performance, and contributing to innovative projects that drive business growth. Seeking a challenging role to leverage technical skills and creativity in developing robust and user-centric applications

KEY COMPETENCIES

- Frontend Development: HTML5, CSS3, JavaScript, Bootstrap
- Backend Development: PHP, Laravel, Python (Django/Flask basics)
- CMS & Platforms: WordPress (Theme & Plugin Development, Customization)
- Database Management: MySQL, MongoDB
- Version Control: Git, GitHub
- Responsive & Mobile-First Design
- Problem Solving & Debugging
- Agile Development & Team Collaboration

PROJECTS

1. E-Commerce Website

Technologies: Html, CSS, MySQL, Bootstrap, Laravel

Description: Developed a fully responsive e-commerce platform with secure user authentication, product management, and payment integration. Optimized performance and implemented RESTful APIs for seamless data flow.

2. Portfolio Website

Technologies: Html, CSS, JS, PHP, Laravel

Description: Built a personal portfolio website to showcase projects and skills. Implemented contact forms, dynamic content management, and responsive design for desktop and mobile.
